

EUX

5-40kW

EFFICIENT WARMTH WITH ELECTRIC.

Introducing the newly launched Powrmatic EUX electric unit heater, the perfect solution for commercial and industrial buildings. This wall-mounted unit provides exceptional heating performance while offering energy-saving benefits. Constructed with high-quality stainless steel, the EUX electric unit heater ensures durability and longevity.

Available in a range of sizes from 5kW to 40kW, this versatile heater meets various heating requirements. With low noise levels, it creates a comfortable environment without any disturbances.

The EUX electric unit heater is specifically designed for applications where there is no access to other heating sources such as gas, oil, or hot water. It operates at 100% efficiency and can be powered by renewable electricity, making it an environmentally-friendly choice.
